Giving a public talk about

# Bees

**Their diversity, life-cycles and use to us**

Bees are in the news due to the colony collapse of honeybees. However, the oft-told story of the honeybee is just one story amongst many about this very diverse group of insects. The talk will cover topics such as the life-cycles, ecosystem service provision, conservation, and diversity of bees. (It will answer questions such as: What is the difference between a bee and wasp? What can I do to encourage bees?)

on

**Wednesday 26 September 2012**

Doors open 7.00pm (join us for a cuppa), talk starts 7.30pm  
At John Lees Hall, Regent Place, Rugby. CV21 2PJ  
(Town centre, next to Baptist Church. Free street parking after 6.00pm)

**Admission free**

(voluntary donations towards costs welcome but by no means required)

All welcome please pass on the date to others who might be interested

“Bee-cause” is a national campaign of Friends of the Earth
